

Motor Vehicle Repair 2009/2011

Level 1 Programme at Bridges

IMIAL Award in Vehicle Fitting Operations

Introduction

If you have practical skills, like to find out how things work, are happy using tools and equipment and have an interest in motor vehicles then this could be the course for you.

Content

- Perfect introduction to the motor industry
- Covers basic Health & Safety and associated areas
- Practical and theory of basic motor vehicle skills

Course Delivery

The emphasis of the course is on learning by doing which means students will experience a substantial amount of practical work carried out in the workshop environment. The underpinning knowledge will be delivered in the classroom and related to the practical tasks.

Assessment

The award consists of 9 externally assessed theory units and 11 internally assessed practical tasks. The theory units make up 50% of the final grade and are assessed by 9 written 'phase' tests with the final 6 units also having on-line multiple choice exams.

Progression

If you successfully complete this qualification you may progress on to a higher level course in Vehicle Fitting or further Level 1 study in Vehicle Maintenance, Motor Cycle Maintenance or Vehicle Body Repair. Employment in a Fast-Fit centre may also be possible.

Entry Guidance

In order to take part in this course you need to have a reasonable level of reading and writing skills along with an interest in motor vehicle and dealing with people. You will be expected to wear Personal Protective Equipment as detailed by Bedford College.

There are three stages to entry:

- Application Form – to be submitted through your school
- An opportunity to visit the College and see our facilities and talk to staff
- Successful completion of the pre-course session in June 2009
